

YOUR SAFETY IS OUR TOP PRIORITY

We have partnered with the infection prevention experts at **Tampa General Hospital** to help keep you and your family safe during your visit here.

After a thorough review, we are proud to say that we earned the TGH Prevention Response Outreach (TPRO) Seal of Approval. This seal means that we have:

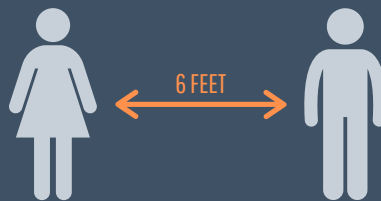

- Had TPRO experts visit our site to evaluate and minimize the risk of viral transmission
- Implemented TPRO expert recommendations to lower these risks
- Trained our employees on specific safety protocols
- Arranged for ongoing support to ensure we have the most up-to-date information on COVID-19 for your protection

While you are here, we ask that you help us protect yourself and others by:

Wearing a Face Mask

Social Distancing

Following all employee guidelines

**Thank you for helping us protect all of our visitors.
We hope you enjoy your visit today.**
